★★★★★ **Amazing Go Kart Experience!**

Reviewed in the United States on June 19, 2019

Color: blue-T581*kart | **Verified Purchase** | **Early Reviewer Rewards** (What's this?)

This product was amazing! My kids absolutely love it and cant get enough of it. My husband bought them a hover board and they really enjoyed that. I was browsing amazon and saw this kart from the same store. I knew I had to surprise them all with it! My husband assembled it quick and he absolutely loved it. The next day the kids tried it and had so much fun. It is much safer to ride and could go on all surfaces. Grass is difficult for adults and that doesn't matter.. It is well built and has a ton of

cool features. Would definitely buy again.

★★★★★ **Fun Hoover for the family !**

Reviewed in the United States on May 22, 2019

Verified Purchase

The quality is amazing; it feels very sturdy and strong. It holds my weight of 210 pounds with no problem. I also like how the fiber carbon parts makes it feel strong and look sleek as well.

The dual motor is very responsive and powerful, I was amaze how smooth they are making the self-balancing feature. It is extremely helpful to anyone especially for beginners like me and my wife. It was helpful that the maximum speed of 12.0km/h can be adjusted

using the mobile application and the children and adult modes make it versatile for everyone.

★★★★★ **Buyer Beware!!**

Reviewed in the United States on June 30, 2020

Color: blue-T581*kart | **Verified Purchase**

My son enjoyed this hoverboard on his birthday early May for a full 30 minutes, and although he liked it in that very brief time, it died. After contacting Gryoor, they insisted I contact them directly outside of Amazon. They would replace the motherboard for "free." It arrived at their office on May 22 and I have not heard anything since. Essentially, they stole the \$279 I paid. Shame on them.

★★★★★ **great for children,**

Reviewed in the United States on June 4, 2019

Verified Purchase | **Early Reviewer Rewards** (What's this?)

Packaging: very well packaged no dents scratches or marks on the hover board. Foam is placed properly inside the box to protect the board from damage.

Ease of use: This is made for children under 12 in my opinion. It is a little smaller than other boards out there. The wheels are a little smaller than others I have seen. But for my 7 year old daughter it is perfect. My daughter hopped right on the hover board and took off right away, she spins around

goes forward and backwards with what appears to be no effort she loves it!! I am 36 years old and

Just got this for our 8yo son. It's the coolest thing he's ever had. Can't comment on longevity of the product, but initial fun rating is a 10/10. Speaker quality is fine. App control with lights and speedometer are fun but not necessary. It's a little too heavy for him to carry safely on his own. Came charged enough to play around with for a couple hours. He's pretty confident on it after just a few days of riding mostly indoors. Stay away from cabinets and trim. Unfinished basements and outside are best to learn to ride it. Adults be careful. This is not a skateboard, scooter, or a Segway. My wife got on, did 4-5 full speed rotations, and got flung off like it was a mechanical bull.

★★★★★ Best hoverboard so far!! Easy to read manual, charger, and carrying bag included

Reviewed in the United States on May 24, 2019

Verified Purchase

Bluetooth connects easily thru phone and speakers are great!! Loud music! Pretty LED lights inside the wheels. When u connect to app it lets u change the color of the front/back lights and u can also change from adult mode to kids mode for younger kids! Love it so far ❤️

- Question:** For everyone that gave this hoverboard 4 to 5 stars, how long have you been using it without any problems?
- Answer:** 6 months. Daily use on hard surfaces and grass, no issues. Good power, good app, great batteries. If you want the best, stop here. This board is not a toy! Well build, and can easily handle a seat attachment. Rides higher than most other boards.

- Question:** What app to download? and from where? looked on android play store, and didn't find anything with the name gyroor. also, some of the answers regarding app are confusing -- some say it works with app, other say it doesn't.
- Answer:** Hello, thanks for your question. Gyroor new version hoverboard with app is on sale now, and the app name called Gyroor, it can be downloaded at smartphone store or scan the QR code at the back of the user manual.

- Question:** Why does my G2 only charge for 30 min before the charging pack says it is fully charged but the led lights are red when riding?
- Answer:** Does it still last long when riding? My son's does that but I notice that it's blue on one side and red on a other. I don't think it has to do with the charge.... His lasts several weeks before needing to recharge. He just rides off and on, not long rides.

- Question:** is this hoverboard FAA compliant, can it be shipped or carried aboard a commercial aircraft?
- Answer:** no hoverboard can be carried on an aircraft. EVEN if the battery power is below TSA and FAA regulation they all say the same thing "it down to the individual airline". The airlines say specifically no hoverboards. I wrote this: <https://thetechguy.com/can-travel-flight-electric-skateboard/>

 **BEST hoverboard!!**

Reviewed in the United States on August 15, 2018

Color: black | **Verified Purchase**

We got this for our 13 yr old daughter! We love the app you can download on your smartphone. The app has a self balancing mode, adult mode, you can set the speed limit, change LED lights, shut the hoverboard down and a few other functions. We think it is a lot better than the others because of the rubber tires. My daughter even brings it in (after cleaning the tires) and rides it around on our hardwood floors with no damage to them. The speakers on it are great too!!

 **Great Product**

Reviewed in the United States on November 27, 2018

Color: black | **Verified Purchase**

This was my first hover board wasn't sure how long it would take me to learn to ride it. After like 30 minutes of training on my own against a wall I was able to ride it with no problems.

The only thing I find bad about this hover board is that every time it starts up it makes a really loud starting indicator noise and says Bluetooth on which I wish I could switch off. Also sometimes when I get off and if it hits something it keeps beeping and won't stop until I power off and back on again.

Apart from these two things I think the hover board is pretty great.

 **Best Hoverboard on the market**

Reviewed in the United States on September 12, 2018

Color: black | **Verified Purchase**

This Hoverboard is absolutely the best on the market. Its fast and extremely sturdy. Made of quality materials. The Hoverboard is a bit pricey compared to the cheap plastic knockoffs, but you get what you pay for. Would purchase again and I definitely recommend this product.

P.s.

You can charge the battery from 0 to 100 real quick. Yeah under 3 hours and u get approx. 10 miles with a full charge.

★★★★★ **Worth it!**

Reviewed in the United States on August 3, 2018

Color: black | **Verified Purchase**

Easy to use once you get the hang of it. Lights are awesome as is the sound system. Getting the app on an iPhone was a bit difficult. Self balancing feature nice. Functionality is bar none. Doesn't work too well on the grass, haven't tried on gravel. App works well, wish it could change to mph instead of kph.

★★★★★ **Super fun!**

Reviewed in the United States on August 9, 2018

Color: black | **Verified Purchase**

Bought this because hubby was jealous of our boy's hover board. The higher weight capacity and off road tires are a huge selling point. Easier to ride than the smaller kid size, more stable feeling. Had an issue with the charging port but Gyroor took care of it no problem!

★☆☆☆☆ **Problems with Shaking and stopping**

Reviewed in the United States on October 9, 2018

Color: red | **Verified Purchase**

I bought 2 of these hover boards for Christmas during the Amazon customer appreciation event in July. In October the kids just couldn't wait any longer so I gave them their boards early while the weather was still nice. They loved them! However within a few hours of using them, one of the boards was shaking and stopping. My grandson has fallen off twice and injured himself because of this defect. I would love to give this 5 stars because it is well made and the kids love them. But the shaking and stopping is not safe and negates any Positive benefits. We have tried to contact seller but not successful yet.

Reviewed in the United States on July 10, 2018

Color: red | **Verified Purchase**

such a great hoverboard! very easy to ride even for a first-time rider and my kids just got on and within minutes they were zipping around the house. Great quality, cool lights give it that futuristic look and it seems to hold a charge for a long time. The tires are massive which gives the board a really good height, comfortable ride, and even riding outside on lawn is no problem. Highly recommended!

★★★★★ Built tough with a smooth ride

Reviewed in the United States on December 7, 2018

Color: black | **Verified Purchase**

Heavy duty built with a smooth ride. I bought for my my 10 year old and she loves it. The parents love it too. I love that it comes with it's own totes bag!

Amazon Customer

Just gonna return it, very cheap quality, don't trust it, terrible app

Reviewed in the United States on December 25, 2020

Color: black | **Verified Purchase**

The app doesn't work. It will connect but as soon as I adjust a setting, it just pops up a message over and over saying device not connected. The app also spams you with ads which is ridiculous since we already paid a lot for the hoverboard itself. The music works but sounds terrible and it frequently starts skipping like CDs used to back in the day of portable CD players. The lights are completely useless, as soon as you adjust them, the app gets an error and doesn't go away till you close the app and reopen it. It resets the boards settings every time you turn the board on. This also goes for the speed limit setting. I also found this hoverboard much harder to ride on rougher terrain than the Razor hoverboards which have slick wheels. With the razor I could lean forward and just go, but the GYROOR only allows a very slight lean forward before it just tips over. Didn't notice any difference with self balancing on or off, or kid mode on or off. Maybe I just got a defective unit, I don't know. So I will be returning this Christmas gift, which isn't to big a deal since it's winter and she is okay waiting for a better unit. Probably won't buy another GYROOR.

Update. I took it over to my nephews house and had him try it out. He is a very seasoned

This is our 2nd hoverboard from Gyroor! When my son got his first hoverboard last year, everyone was envious of him, including the adults. First, the presentation of the packaging is impressive. The little note they give you is above par and shows how much they value their product. The bluetooth is very easy to set up and connect to. The sound of the speakers is awesome too and the lights on this newer model rock! They are soooo cool looking! The Gyroor app is very user friendly as well.

I'm very impressed! One of our favorite things about the Gyroor hoverboards is the off road

Looking for the best off-road hoverboard?

Reviewed in the United States on January 9, 2021

Verified Purchase

Living on a farm in a cold-weather climate with snow, it's difficult to find hoverboards that work. This hoverboard is great and the customer service is awesome! It's the perfect size for our 9 year old and she loves the colors and flashing lights. There is also a Bluetooth option! Would buy this product and from this company again.

★★★★★ **Nice, powerful little hoverboard**

Reviewed in the United States on January 28, 2021

Color: black | **Verified Purchase**

We've had this thing for roughly a month now and my 10 year old loves it. It's fast, the bluetooth speaker connects easily and sounds great on the streets. There was a learning curve learning how to ride it, of course, but I wish I would've thought to put some duct tape or something on the handles to keep them from getting all scuffed up from the pavement. Other than that, it's cool. I'm also learning how to ride the dern thing although my balance makes it difficult for me to stay on it at 42 years old. As long as I keep trying, I'll get it just like my son did. We charge it according to the manual and so far the battery life is good. We don't leave it plugged in after the light turns green on the charger and we never leave it plugged in overnight (just in case). The tires are thick and the machine itself has good weight to it, so I feel like I really got value for what I paid for it (I shopped around for roughly 6 or 7 other brands before I decided on this one). It's definitely a keeper. I'm glad we got it.

★★★★★ **Meets Expectations, Kid loves it**

Reviewed in the United States on February 17, 2021

Color: black | **Verified Purchase**

Pros:

- Durable across rough terrains
- High volume on speakers
- Smooth speed transitions

Cons:

- Heavier on the ends (obviously I know)
- For my son it's just so heavy and awkward to lug around or put into its bag.

This product is everything it is supposed to be so if you're torn on whether or not to get it, consider the following two questions:

Too danger for my ago

Reviewed in Canada on July 13, 2021

Verified Purchase

According the ads, this machine is easy to ride and everyone can do it. Until I made the order and received the product, I read the manual and find so many risk I am facing. Maybe it is fun to ride, I will strongly recommend you think twice if you are older than 50. Product looks have good quality and the refund is smooth and no question.

Corrie

Highly recommended. Beautiful hoverboard

Reviewed in Canada on July 6, 2021

Color: BLUE | **Verified Purchase**

I absolutely love this. It went way beyond my expectations and my daughter is over the moon as this was her big birthday present. It was packaged nicely, there was a letter from the company and it looks amazing. I haven't tried the Bluetooth yet and still need to take a video but she needs to practice a bit first. I am happy I decided to go with this one compared to some others I was looking at because the reviews were much better than others. Thank you very much

Not as expected

Reviewed in Canada on July 11, 2021

Verified Purchase

Difficult to control. The hoverboard is inconsistent in moving forward/backward when leaning forward/backward on the board pedals. My 11YO nephew unfortunately fell down while trying his new toy and scraped his arm. Poor boy was in tears. After some time it also kept on beeping for no reason. In the end he doesn't want this present anymore so I've decided to return it. =(

JL-PE

★★★★☆ **Not built for offroad or up to 220 lbs!**

Reviewed in Canada on July 14, 2021

Verified Purchase

We thought these would be awesome units, as they are advertised for offroad use, can handle up to 220 lbs, etc.

We keep our yard mowed very low. Yet, our 12 year old (roughly 130 lbs) can't ride it at all offroad. Really puts a damper on things, as she was waiting/excited to get one.

Tried the app as well, which needs to harvest your location/information, access to make/manage phone calls, access to camera/gallery, etc. Seems to have connectivity issues as well.

Shouldn't be advertised for offroad or rated for up to 220 lbs.

★★★★☆ **Just gonna return it, very cheap quality, don't trust it, terrible app**

Reviewed in the United States on December 25, 2020

Color: black | **Verified Purchase**

The app doesn't work. It will connect but as soon as I adjust a setting, it just pops up a message over and over saying device not connected. The app also spams you with ads which is ridiculous since we already paid a lot for the hoverboard itself. The music works but sounds terrible and it frequently starts skipping like CDs used to back in the day of portable CD players. The lights are completely useless, as soon as you adjust them, the app gets an error and doesn't go away till you close the app and reopen it. It resets the boards settings every time you turn the board on. This also goes for the speed limit setting. I also found this hoverboard much harder to ride on rougher terrain than the Razor hoverboards which have slick wheels. With the razor I could lean forward and just go, but the GYROOR only allows a very slight lean forward before it just tips over. Didn't notice any difference with self balancing on or off, or kid mode on or off. Maybe I just got a defective unit, I don't know. So I will be returning this Christmas gift, which isn't to big a deal since it's winter and she is okay waiting for a better unit. Probably won't buy another GYROOR.

Update. I took it over to my nephews house and had him try it out. He is a very seasoned

★★★★★ **Gyroor is the hoverboard brand to buy!**

Reviewed in the United States on December 24, 2020

Color: black | **Verified Purchase**

This is our 2nd hoverboard from Gyroor! When my son got his first hoverboard last year, everyone was envious of him, including the adults. First, the presentation of the packaging is impressive. The little note they give you is above par and shows how much they value their product. The bluetooth is very easy to set up and connect to. The sound of the speakers is awesome too and the lights on this newer model rock! They are soooo cool looking! The Gyroor app is very user friendly as well.

I'm very impressed! One of our favorite things about the Gyroor hoverboards is the off road

I wouldn't buy this item ever again my daughter couldn't even try it wouldn't turn on. Then I couldn't get a hold of anyone to talk to regarding it. I'm very disappointed with Amazon and this company I have to wait a few weeks for refund to find her another one.

☆☆☆☆☆ **Looking for the best off-road hoverboard?**

Reviewed in the United States on January 9, 2021

Verified Purchase

Living on a farm in a cold-weather climate with snow, it's difficult to find hoverboards that work. This hoverboard is great and the customer service is awesome! It's the perfect size for our 9 year old and she loves the colors and flashing lights. There is also a Bluetooth option! Would buy this product and from this company again.

☆☆☆☆☆ **Nice, powerful little hoverboard**

Reviewed in the United States on January 28, 2021

Color: black | **Verified Purchase**

We've had this thing for roughly a month now and my 10 year old loves it. It's fast, the bluetooth speaker connects easily and sounds great on the streets. There was a learning curve learning how to ride it, of course, but I wish I would've thought to put some duct tape or something on the handles to keep them from getting all scuffed up from the pavement. Other than that, it's cool. I'm also learning how to ride the dern thing although my balance makes it difficult for me to stay on it at 42 years old. As long as I keep trying, I'll get it just like my son did. We charge it according to the

We've had this thing for roughly a month now and my 10 year old loves it. It's fast, the bluetooth speaker connects easily and sounds great on the streets. There was a learning curve learning how to ride it, of course, but I wish I would've thought to put some duct tape or something on the handles to keep them from getting all scuffed up from the pavement. Other than that, it's cool. I'm also learning how to ride the dern thing although my balance makes it difficult for me to stay on it at 42 years old. As long as I keep trying, I'll get it just like my son did. We charge it according to the manual and so far the battery life is good. We don't leave it plugged in after the light turns green on the charger and we never leave it plugged in overnight (just in case). The tires are thick and the machine itself has good weight to it, so I feel like I really got value for what I paid for it (I shopped around for roughly 6 or 7 other brands before I decided on this one). It's definitely a keeper. I'm glad we got it.

★★★★★ **Meets Expectations, Kid loves it**

Reviewed in the United States on February 17, 2021

Color: black | **Verified Purchase**

Pros:

- Durable across rough terrains
- High volume on speakers
- Smooth speed transitions

Cons:

- Heavier on the ends (obviously I know)

For my son it's just so heavy and awkward to lug around or put into its bag.

This product is everything it is supposed to be so if you're torn on whether or not to get it, consider the following two questions:

★☆☆☆☆ **Too danger for my ago**

Reviewed in Canada on July 13, 2021

Verified Purchase

According the ads, this machine is easy to ride and everyone can do it. Until I made the order and received the product, I read the manual and find so many risk I am facing. Maybe it is fun to ride, I will strongly recommend you think twice if you are older than 50. Product looks have good quality and the refund is smooth and no question.

★★★★★ **Highly recommended. Beautiful hoverboard**

Reviewed in Canada on July 6, 2021

Color: BLUE | **Verified Purchase**

I absolutely love this. It went way beyond my expectations and my daughter is over the moon as this was her big birthday present. It was packaged nicely, there was a letter from the company and it looks amazing. I haven't tried the Bluetooth yet and still need to take a video but she needs to practice a bit first. I am happy I decided to go with this one compared to some others I was looking at because the reviews were much better than others. Thank you very much

☆☆☆☆☆ **Not as expected**

Reviewed in Canada on July 11, 2021

Verified Purchase

Difficult to control. The hoverboard is inconsistent in moving forward/backward when leaning forward/backward on the board pedals. My 11YO nephew unfortunately fell down while trying his new toy and scraped his arm. Poor boy was in tears. After some time it also kept on beeping for no reason. In the end he doesn't want this present anymore so I've decided to return it. =(

☆☆☆☆☆ **Not built for offroad or up to 220 lbs!**

Reviewed in Canada on July 14, 2021

Verified Purchase

We thought these would be awesome units, as they are advertised for offroad use, can handle up to 220 lbs, etc.

We keep our yard mowed very low. Yet, our 12 year old (roughly 130 lbs) can't ride it at all offroad. Really puts a damper on things, as she was waiting/excited to get one.

Tried the app as well, which needs to harvest your location/information, access to make/manage phone calls, access to camera/gallery, etc. Seems to have connectivity issues as well.

Shouldn't be advertised for offroad or rated for up to 220 lbs.

Report abuse

We keep our yard mowed very low. Yet, our 12 year old (roughly 150 lbs) can't ride it at all offroad. Really poor advice on things as the wife is waiting/excited to use it. Tried the app as well, which needs to harvest your location/information, access to make/manage phone calls, access to camera/gallery, etc. Seems to have connectivity issues as well. Shouldn't be advertised for offroad or rated for up to 220 lbs.

Just gonna return it, very cheap quality, don't trust it, terrible app

Reviewed in the United States on December 25, 2020

Color: black | **Verified Purchase**

The app doesn't work. It will connect but as soon as I adjust a setting, it just pops up a message over and over saying device not connected. The app also spams you with ads which is ridiculous since we already paid a lot for the hoverboard itself. The music works but sounds terrible and it frequently starts skipping like CDs used to back in the day of portable CD players. The lights are completely useless, as soon as you adjust them, the app gets an error and doesn't go away till you close the app and reopen it. It resets the boards settings every time you turn the board on. This also goes for the speed limit setting. I also found this hoverboard much harder to ride on rougher terrain than the Razor hoverboards which have slick wheels. With the razor I could lean forward and just go, but the GYROOR only allows a very slight lean forward before it just tips over. Didn't notice any difference with self balancing on or off, or kid mode on or off. Maybe I just got a defective unit, I don't know. So I will be returning this Christmas gift, which isn't to big a deal since it's winter and she is okay waiting for a better unit. Probably won't buy another GYROOR.

Update. I took it over to my nephews house and had him try it out. He is a very seasoned

Gyroor is the hoverboard brand to buy!

Reviewed in the United States on December 24, 2020

Color: black | **Verified Purchase**

This is our 2nd hoverboard from Gyroor! When my son got his first hoverboard last year, everyone was envious of him, including the adults. First, the presentation of the packaging is impressive. The little note they give you is above par and shows how much they value their product. The bluetooth is very easy to set up and connect to. The sound of the speakers is awesome too and the lights on this newer model rock! They are sooooo cool looking! The Gyroor app is very user friendly as well.

I'm very impressed! One of our favorite things about the Gyroor hoverboards is the off road

I wouldn't buy this item ever again my daughter couldn't even try it wouldn't turn on. Then I couldn't get a hold of anyone to talk to regarding it. I'm very disappointed with Amazon and this company I have to wait a few weeks for refund to find her another one.

★★★★★ **Looking for the best off-road hoverboard?**

Reviewed in the United States on January 9, 2021

Verified Purchase

Living on a farm in a cold-weather climate with snow, it's difficult to find hoverboards that work. This hoverboard is great and the customer service is awesome! It's the perfect size for our 9 year old and she loves the colors and flashing lights. There is also a Bluetooth option! Would buy this product and from this company again.

★★★★★ **Nice, powerful little hoverboard**

Reviewed in the United States on January 28, 2021

Color: black | **Verified Purchase**

We've had this thing for roughly a month now and my 10 year old loves it. It's fast, the bluetooth speaker connects easily and sounds great on the streets. There was a learning curve learning how to ride it, of course, but I wish I would've thought to put some duct tape or something on the handles to keep them from getting all scuffed up from the pavement. Other than that, it's cool. I'm also learning how to ride the dern thing although my balance makes it difficult for me to stay on it at 42 years old. As long as I keep trying, I'll get it just like my son did. We charge it according to the manual and so far the battery life is good. We don't leave it plugged in after the light turns green on the charger and we never leave it plugged in overnight (just in case). The tires are thick and the machine itself has good weight to it, so I feel like I really got value for what I paid for it (I shopped around for roughly 6 or 7 other brands before I decided on this one). It's definitely a keeper. I'm glad we got it.

to keep them from getting all scuffed up from the pavement. Other than that, it's cool. I'm also learning how to ride the darn thing although my balance makes it difficult for me to stay on it at 42 years old. As long as I keep trying, I'll get it just like my son did. We charge it according to the manual and so far the battery life is good. We don't leave it plugged in after the light turns green on the charger and we never leave it plugged in overnight (just in case). The tires are thick and the machine itself has good weight to it, so I feel like I really got value for what I paid for it (I shopped around for roughly 6 or 7 other brands before I decided on this one). ★★★★★ **Meets Expectations, Kid loves it**

Reviewed in the United States on February 17, 2021

Color: black | **Verified Purchase**

Pros:

- Durable across rough terrains
- High volume on speakers
- Smooth speed transitions

Cons:

- Heavier on the ends (obviously I know)

For my son it's just so heavy and awkward to lug around or put into its bag.

This product is everything it is supposed to be so if you're torn on whether or not to get it, consider the following two questions:

★★★★★ **Too danger for my ago**

Reviewed in Canada on July 13, 2021

Verified Purchase

According the ads, this machine is easy to ride and everyone can do it. Until I made the order and received the product, I read the manual and find so many risk I am facing. Maybe it is fun to ride, I will strongly recommend you think twice if you are older than 50. Product looks have good quality and the refund is smooth and no question.

Corrie

Highly recommended. Beautiful hoverboard

Reviewed in Canada on July 6, 2021

Color: BLUE | **Verified Purchase**

I absolutely love this. It went way beyond my expectations and my daughter is over the moon as this was her big birthday present. It was packaged nicely, there was a letter from the company and it looks amazing. I haven't tried the Bluetooth yet and still need to take a video but she needs to practice a bit first. I am happy I decided to go with this one compared to some others I was looking at because the reviews were much better than others. Thank you very much

Minnie Zheng

Not as expected

Reviewed in Canada on July 11, 2021

Verified Purchase

Difficult to control. The hoverboard is inconsistent in moving forward/backward when leaning forward/backward on the board pedals. My 11YO nephew unfortunately fell down while trying his new toy and scraped his arm. Poor boy was in tears. After some time it also kept on beeping for no reason. In the end he doesn't want this present anymore so I've decided to return it. =(

[Report abuse](#)

JL-PE

Not built for offroad or up to 220 lbs!

Reviewed in Canada on July 14, 2021

Verified Purchase

We thought these would be awesome units, as they are advertised for offroad use, can handle up to 220 lbs, etc.

We keep our yard mowed very low. Yet, our 12 year old (roughly 130 lbs) can't ride it at all offroad. Really puts a damper on things, as she was waiting/excited to get one.

Tried the app as well, which needs to harvest your location/information, access to make/manage phone calls, access to camera/gallery, etc. Seems to have connectivity issues as well.

Shouldn't be advertised for offroad or rated for up to 220 lbs.
